

EUROTUNNEL Vehicle dimensions

To ensure that your vehicle can travel on EUROTUNNEL truck shuttles, please find below the maximum size and weight of vehicles EUROTUNNEL can carry:

Please note that for safety reasons, campervans are not authorised to travel on our truck shuttles.

LPG tank: LPG is the abbreviation for « Liquefied Petroleum Gas ».

LPG or equivalent flammable gas and dual powered vehicles (i.e. vehicles fitted with an LPG or equivalent tank as an alternative fuel) cannot be accepted for transport by Eurotunnel Le Shuttle, even though:

the LPG or equivalent tank is empty,
the LPG or equivalent mode of the vehicle is not selected.

Acceptability of vehicles according to their fuel type / power source (including dual-fuelled & hybrid vehicles)

Secondary fuel type / power source	Primary fuel type / Power source			
	Petrol / Diesel	Electric (battery & plug-in)	LPG/LNG/CNG (and all other flammable gas)	Biofuel (including Bio Ethanol and Bio Diesel)
Petrol / Diesel	✓	✓	✗	✓
Electric (battery & plug-in)	✓	✓	✗	✓
LPG/LNG/CNG (and all other flammable gas)	✗	✗	✗	✗
Biofuel (including Bio Ethanol and Bio Diesel)	✓	✓	✗	✓
